```
graph TD; 302[Hide Video 302] --> 304[Get parent window of application window 304]; 304 --> 306[Set parent of video window to parent of application window 306]; 306 --> 308[Set application window style to transparent 308]; 308 --> 310[Show video window 310]; 310 --> 312[Bring application window to top 312];
```

Flowchart 300 illustrates the process of displaying a video window. The steps are as follows:

- Hide Video 302
- Get parent window of application window 304
- Set parent of video window to parent of application window 306
- Set application window style to transparent 308
- Show video window 310
- Bring application window to top 312
